

New Head Office,  
New Outlook

## SLF BEGINS THE NEXT CHAPTER OF ITS STORY

SLF

Montreal, October 26, 2020

**SLF Montreal** is excited to announce its upcoming move to a new location in Montreal's central business district. The entire team will proudly serve clients from the 12<sup>th</sup> floor of 1130 Sherbrooke Street West, strategically situated in the heart of the iconic Golden Square Mile. The recently renovated Class A office building is only steps away from the Peel metro station, the McGill University campus and countless nearby amenities, including world-class restaurants, hotels and cultural venues.

### **BIGGER, BETTER... AND GREENER!**

The new 14,000-square-foot space will accommodate **SLF Montreal's** ever-growing team and provide them with state-of-the-art facilities to enhance collaboration and productivity.

With windows on all sides and a fresh-air HVAC system, staff and visitors will enjoy an abundance of natural light, panoramic views of the surrounding cityscape and superior indoor air quality. Brand-new ergonomic workstations designed to reduce strain and enhance user comfort will further contribute to overall well-being.

The building also boasts accommodations for bicycle commuters, including racks and showers, so employees can take full advantage of the nearby bike paths. Other carbon footprint reduction initiatives include a digital document management system to promote a paperless environment.

### **A NEW APPROACH FOR A NEW AGE**

The move coincides with **SLF Montreal's** ongoing efforts to adapt to new workplace realities in the wake of COVID-19. The entire layout has been reconceptualized and strategically divided up to encourage safe interaction on a human scale. Stringent janitorial standards for common spaces such as the kitchen, lounges and board rooms will also be in place to maximize employee health and wellness.

Work-at-home flexibility and rotating schedules will continue to be an important feature of **SLF Montreal's** new head office. This will not only help maintain a safe workplace, but it will also enable employees to achieve the work-life balance so critical to job satisfaction and career success. This will be supported by advanced IT infrastructure, complete with robust VPN servers, extensive bandwidth and leading-edge collaborative applications.
